MATRIX42
SMARTER WORKSPACE – BETTER LIFE

Silverback by Matrix42:

Mobile Made Easy

Enterprise Mobility Management as it should be: Simple, Scalable, Secure

Enterprise mobility is complex, but managing and using it shouldn't be. Which is why Silverback by Matrix42 makes enterprise mobility easier for the people that deliver, manage and use mobile IT. It also integrates seamlessly with the rest of the Matrix42 Workspace Management suite. That's what makes it an essential element in delivering the smarter IT workspaces that enable a better life for everyone.

REDEFINING ENTERPRISE MOBILITY MANAGEMENT (EMM)

Perhaps you already have an EMM solution in place, but your administrators or end users are finding that it is too complex to manage and use. Or maybe you're deciding how to finally get all your mobile devices and 'Bring Your Own Device' requests under control. Whichever it is, Silverback by Matrix42 offers you a unique solution that not only solves today's problems but paves the way for a smarter workspace in the future.

1

Effortless Simplicity

- Clientless enrolment for your users
- Integrates easily and flexibly with your existing infrastructure
- Maintains the native mobile OS user experience end users prefer

2

Extensible Scalability

- No proprietary proxy servers creating bottlenecks, cost and single points of failure
- Zero-touch for IT with the Self Service Portal for users
- Standards-based technology that delivers a highly available platform with lower TCO

3

Effective Security

- One-time PIN for enrollment
- Enhanced PKI security without the need for Active Directory passwords on the device
- Device and OS version-specific compliance & privacy control

Your benefits at a glance

- No requirement for an iTunes account with our Clientless device enrolment
- Maximum value from your existing IT infrastructure without requiring proprietary proxy servers
- Enable thousands of users without having to touch a device with our Self Service Portal and simple enrolment process
- Maximum user satisfaction and reduced support workload through a familiar, native user experience
- Optimized enterprise mobility deployment and management costs through a single, standardized and streamlined solution interface
- Complete deployment flexibility – on premise or in the cloud

SILVERBACK BY MATRIX42: KEY CAPABILITIES

Mobile Device Management (MDM)

- Clientless, zero-touch provisioning
- Secure and scalable administration of the following devices: Apple iOS, Google Android native and Android for Work, Samsung SAFE & Knox and Microsoft Windows Phone
- No proprietary proxy server required
- Full end-point control including Exchange, WiFi, VPN and Restriction settings

YOUR BENEFITS

Innovative and complete

Matrix42 is the only vendor that can execute a workspace aggregation strategy based on its own universal device management and ITSM product portfolio.

That's why it's time to stop thinking about enterprise mobility as separate from the rest of your corporate IT. Through the deep integration of Silverback with Matrix42 Workspace Management, you can now manage all of your mobile, physical and virtual workspaces, plus ITSM and compliance,within a 'single pane of glass' management environment.

It's a unique capability. Let us show you what it can do for your organization.

FROM ENTERPRISE MOBILITY, TO THE UNIFIED WORKSPACE OF THE FUTURE

What really differentiates Silverback by Matrix42 from other Enterprise Mobility Management Solutions? In a word: Synergy. Together with the rest of the Matrix42 Workspace Management suite, it delivers much more than the sum of its parts.
