

MATRIX42 MARKETPLACE PRODUCTS

ESM Data Insights with Power BI

Create reports, dashboards and ad hoc analyses based on the simplified Matrix42 data model in a short time, on your own and without technical background.

Description

Create your own Matrix42 reports and dashboards quickly, easily and without technical background and perform ad hoc analyses for the Service Desk, Service Catalog and Asset Management modules. Be inspired by the Microsoft Power BI Templates for Matrix42 included in the add-on package! Of course, you are free to connect the data model to any visualization tool already available in your company.

Make better decisions from now on.

ESM Data Insights with Power BI
