EgoSecure INSIGHT Specialist - Training

Find out what analyzes and conclusions from the results of EgoSecure INSIGHT are possible. The training will be held in German.

Description

EgoSecure INSIGHT Specialist Training for [Data Protection](#)

Learning Objectives

You will receive practice-oriented training courses for EgoSecure, which deepen specific topics concerning data protection. Therefore the participants of the training simulate the role of the administrator after comprehensive introductions to the IT security measures. You will also configure specially installed computer systems. This gives you a practical insight into the methods and tools of Data Protection. Practical and theoretical units increase the handling of EgoSecure protection measures and the awareness of safety risks. Participants will learn about EgoSecure Data Protection. This allows you to optimally adapt the security to the needs and conditions of the company. Through practice-relevant examples and exercises in small groups it is taught how to integrate the components with few steps and fully exploit the possibilities of EgoSecure Data Protection.

Target Audience

You are a system and network administrator, responsible for your company's IT system or a IT security officer.
