Matrix42 Service Management Training (English)

You will learn how to provide and manage various IT services using the “Services” modules of your Matrix42 Workspace Management solution. The training will be held in english.

Description

Learning Objectives

You will learn how to provide and manage various IT services using the “Services” modules of your Matrix42 Workspace Management solution. Efficient handling of incidents, problems, changes, and tasks forms the basis for a solution-oriented service management. You will compile evaluations for fulfilling service level agreements and will learn to control the ticket load. This will enable you to continually increase your quality of service.

Target Audience

Project Managers, professional users or technical managers, Workspace Management or IT administrators, ITSM project managers
