Journal Extended

This addon provides several new features to the journal, such as the support of the hashtags, additional sorting and filtering

Description

The Journal Extended is an addon which provides several new features to the journal, such as the support of the hashtags, additional sorting, filtering and the enhanced email sending action. The addon is designed to be used in place of the original journal.

Use cases:

- the entry that provides a solution can be tagged with #solution hashtag and then easily found by "Show hashtag" filter
- if there are lots of particularly frequent entries, they can be tagged and then filtered out by "Hide hashtag" filter
- certain people can be "assigned" to the entries by tagging their names for various purposes.
- emails can be sent directly to people who created the journal entries

Benefits:

it can ease the work with the journal, especially if there are lots of journal entries.

Installation is done via the Matrix42 Extension Gallery.

The manual can be found here.
